PSAV News Letter

Partnership for Sustainable Agriculture in Viet Nam - PSAV

MINISTRY OF AGRICULTURE AND RURAL DEVELOPMENT

IN THIS ISSUE

HIGHLIGHTED ACTIVITIES OF THE PPP TASK FORCES (TF).

- Public Private Partnership to reduce carbon emissions in coffee production.

OTHER RELEVANT EVENTS

- Implement tasks of agriculture and rural development sector for 2023.

- Establishment of the PPP Task Force on Rice.

- International cooperation on agriculture.

NEW POLICIES TO SUPPORT THE DEVELOPMENT OF AGRICULTURAL ENTERPRISES:

- Decision: 296/QĐ-BNN-KHCN
- Consolidation document: 01/VBHN-BNNPTNT
- Decision: 394/QĐ-BNN-CLCB
- Decision: 373/QĐ-BNN-BVT
- Consolidation document: 24/VBHN-BNNPTNT

THE COMING EVENTS

- Cooperate with Grow Asia to organize "Inter-regional Ministerial Conference on Digital Transformation for Food Systems".
- Consult and finalize report on the establishment of the PPP Sub Group on Pig Production within the framework of the PPP Task Force on Livestock under PSAV.
- Reviewing and re-evaluating the operation of the PSAV Secretariat and the PPP Task Forces in the first 6 months of 2023.
- PSAV will sign a Memorandum of Understanding (MOU) with Nestlé Viet Nam.
- Make a plan for Minister Le Minh Hoan to receive and work with Mr. Mark Schneider, General Director of Nestlé global corporation.

PSAV SECRETARIAT'S ACTIVITIES

- Development orientation of the PPP Task Force on Rice in 2023

NBS để thích ứng trong nông nghiệp tại Việt Nam

- Nature-based climate change adaptation solutions in agriculture through private sector transformation in Vietnam

1 PPP TASK FORCE (TF) on Coffee:

Public Private Partnership to reduce carbon emissions in coffee production

On the afternoon of February 14, 2023, the Ministry of Agriculture and Rural Development in collaboration with IDH Sustainable Trade Initiative, JDE Peet's Company and members of the PPP Task Force on Coffee held a workshop on reducing greenhouse gas emission in the material area of Vietnamese coffee. At the workshop, the Ministry of Agriculture and Rural Development (Department of Crop Production), IDH and the Global Coffee Platform (GCP) signed a Memorandum of Understanding on cooperation on low-emission coffee production, meeting standards for coffee production, export and domestic consumption. At the same time, these organizations will cooperate with major coffee companies to build and implement 03 low-emission coffee production projects in the 2021-2025 period, with the vision to the year 2030. The three coffee production projects will be co-implemented from 2022-2025 by JDE Peet's, IDH, ACOM, LDC Viet Nam, Simexco, GCP, Syngenta and farmers in 4 provinces of Lam Dong, Dak Lak, Dak Nong and Gia Lai, with the total investment of 3.6 million Euro. More than 48,000 farmers are expected to practice sustainable production practices and improve incomes.

Minister of Agriculture and Rural Development Le Minh Hoan giving the speech at the workshop.

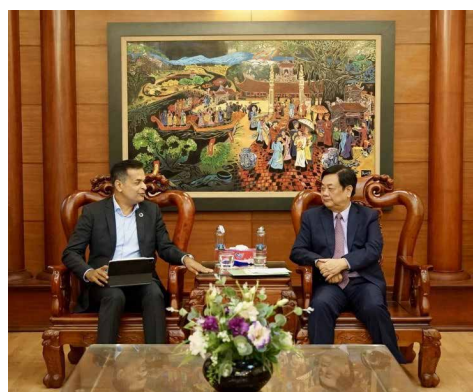

Sustainable development of Viet Nam coffee industry

Within the framework of the 8th Buon Ma Thuot Coffee Festival, 2023, on March 12, 2023, the Ministry of Agriculture and Rural Development coordinated with the People's Committee of Dak Lak province and the Viet Nam Coffee Cocoa Association organized the Conference on High Quality Coffee Viet Nam Development.

The Workshop was an opportunity to meet and connect between central agencies, local authorities, professional agencies, scientists, businesses, production-process-consumption cooperation, investors, distribution chains, diplomatic agencies and trade promotion agencies in the world to jointly come up with solutions to promote the green and sustainable development of Vietnamese coffee, meeting the requirements of the domestic and international market.

Strengthening the Public Private Partnership coffee industry development

On March 15, 2023, Minister of Agriculture and Rural Development Le Minh Hoan received and worked with Mr. Binu Jacob, General Director of Nestlé Viet Nam. The two sides exchanged and discussed cooperation between the Ministry of Agriculture and Rural Development and Nestlé within the framework of the Partnership for Sustainable Agriculture in Viet Nam (PSAV) to provide orientations and solutions for sustainable agriculture development in the direction of regenerative and low-emission agriculture, adding value to Vietnamese agricultural products, especially coffee. At the meeting, Mr. Binu Jacob proposed that the two sides sign a MOU to further strengthen the role of the coffee industry, especially within the PSAV framework, and wished to continue accompanying the Ministry of Agriculture and Rural development in the initiative of Food Innovation Hub Vietnam (FIHV) and cooperation programs for sustainable agricultural development.

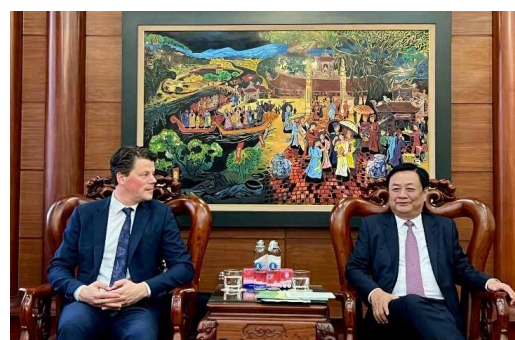

Minister of Agriculture and Rural Development Le Minh Hoan (right) receives and works with Mr. Binu Jacob, General Director of Nestlé Viet Nam.

"About 35% of the Group's coffee comes from Viet Nam each year, Nestlé purchase around 20-25% of the total coffee production in Viet Nam. Therefore, the success of Nestlé depends on the success of Viet Nam coffee industry", emphasized Mr. Binu Jacob.

Supporting sustainable coffee production in the Central Highlands regions

On February 13, 2023 in Ha Noi, Minister of Agriculture and Rural Development Le Minh Hoan had a meeting with Mr. Daan Wensing, Global General Director of IDH Sustainable Trade Initiative. The two sides discussed orientations and strategies for cooperation between IDH and the Ministry of Agriculture and Rural Development in supporting agricultural production in the Central Highlands, especially coffee production in a sustainable way, reducing emission and meeting market's requirements. At the meeting, Ms. Tran Quynh chi, Asia Regional Director, IDH proposed that the Ministry of Agriculture and Rural Development coordinate with IDH and private partners in the coffee industry to implement key activities such as: Building a sustainable, low-emission, large-scale coffee material area; Developing a system of appraisal of coffee

Minister of Agriculture and Rural Development Le Minh Hoan (right) greets and works with Mr. Daan Wensing (left), Global General Director of IDH Sustainable Trade Initiative.

products without deforestation; Develop and test a supply chain traceability/transparency system for coffee products according to EU's requirements in at-risk areas; Synthesize and respond to the EU on the non-deforested coffee product appraisal system based

on the above tests. Regarding carbon emissions, it is proposed to identify solutions to reduce emissions for the coffee industry; develop and pilot carbon offsetting models in the product chain.

2 PPP Task Force (TF) on Fruits and Vegetables:

Linking production and consumption: A sustainable model for potatoes

Mr. Nguyen Do Anh Tuan - Director General of International Cooperation Department, Ministry of Agriculture and Rural Development delivered the opening speech.

Within the framework of activities of the Task Force on Fruits and Vegetables under the Partnership for Sustainable Agriculture Viet Nam (PSAV), on March 16, 2023 in Da Lat City, Lam Dong, Co., Ltd. Syngenta and Pepsico Co., Ltd. and members of the PPP Task Force on Fruits and Vegetables coordinated to organize the Program "Harvesting festival of sustainable potato production-consumption model".

In the period between 2022-2025, the factors in the linkage chain will continue to implement and expand the project to develop a model potato farm in some Central Highlands provinces such as Lam Dong, Dak Lak and Gia Lai. The project aims to expand production scale to over 2,000 hectares with more than 1,000 farmers participating, aiming towards helping farmers increase the yield and quality of potatoes, bring about real profit after cultivation and adapting to climate change, contributing to environmental protection in agriculture.

Farmers harvesting potatoes

3 PPP Task Force (TF) on Fisheries:

Establishment of Public Private Sub Groups under the PPP Task Force on Fisheries

In the first quarter of 2023, the Directorate of Fisheries, the Co-Head of the PPP Task Force on Fisheries worked closely with relevant units of the Ministry, domestic enterprises, multinational corporations, international organizations and the Association to draft a Decision on the establishment of Public Private subgroups under the PPP Task Force on Fisheries. According to the General Department of Fisheries, there will be 6 subgroups established including: (1) PPP Sub Group on Shrimp; PPP Sub Group on Pangasius; (3) PPP Sub Group on Tuna; (4) PPP Sub Group on Aquatic Environment; (5) PPP Sub Group on Seaweed (6) PPP Sub Group on Marine Aquaculture. It is expected that the Decision will be issued in the second Quarter of 2023 after collecting comments from relevant parties.

Seafood exports fluctuated strongly in the first Quarter of 2023

According to the statistics of Ministry of Agriculture and Rural Development, in January 2023, Viet Nam's seafood exports

reached 457.2 million USD, a decrease of 47.3% compared to December 2022, and 39.4% when comparing with the same period in 2022. In which, exports to all markets decreased. Entering February 2023, seafood export value is estimated at 550 million USD, bringing the total value of Viet Nam's seafood exports in the first two months of 2023 to 1.01 billion USD. This number went down by 32.9% compared to the same period in 2022. Regarding the structure of export products, in January 2023 alone, exports of all major products decreased deeply by 30-50% compared with the same period in 2022. Pangasius exports fell the most by 61%, shrimp by 55%, tuna by 43%, mollusks by 32% and other fishes by 28%. According to VASEP's assessment, political and economic fluctuations, commodity and food inflation have been and will continue to affect consumer demand as well as business plans in markets, especially major markets of Vietnamese seafood such as America, Japan, China and the European Union (EU). After the international seafood fairs scheduled to be held in March and April 2023, along with the adaptation and boom of the Chinese market and also the strategic adjustment of Vietnamese seafood enterprises, exports are expected to gradually recover starting from the second Quarter of 2023.

4 PPP Task Force (TF) on Pepper and Spices:

In the first Quarter of 2023, Viet Nam Pepper Association - private Co-Head organized an assessment, survey and information collection on the area, yield and productivity of Vietnamese pepper in key provinces to have a basis to help member enterprises build business strategies.

In addition, the PPP Task Force on Pepper and Spices also coordinated with its member to complete AppTrace - an application to help manage information on pepper production in key areas.

It is expected that in the second Quarter of 2023, the Viet Nam Pepper Association will cooperate with members of the Task Force to develop a plan to work with the Department of Agriculture of provinces to have a basis to make a strategy for the development of the pepper and spices industry to 2025 and with a vision to 2030.

5 PPP Task Force (TF) on Rice:

Strategic orientation for the development of Viet Nam's rice industry

On the afternoon of March 3, 2023 in Can Tho, Ministry of Agriculture and Rural Development (National Agriculture Extension Center - representative of the public sector) cooperated with Bayern Viet Nam - representative of the private sector to organize a Workshop on strategic direction of the PPP Task Force on Rice and announced the establishment of the PPP Task Force on Rice (Decision No. 2258/QĐ-BNN-HTQT). The Workshop focused on sharing the Task Force's initiatives and operational orientations to find solutions to develop the rice industry in a highly competitive, value-added, sustainable, emission-reducing and increased social and environmental economic performance.

6 PPP Task Force on Agro-Chemicals

Supporting farmers to understand the principles of responsible use of pesticides

The Plant Protection Department, the Department of Agriculture and Rural Development of Dong Thap province and the Viet Nam CropLife Association organized a model visit and a closing ceremony of the program to guide and train farmers on responsible use of pesticides in Dong Thap province 2021-2022 and signed cooperation contents in 2022-2023. These activities are within the framework of the trilateral cooperation program in between 2021-2026. The project's objective is to support farmers, pesticides traders to access and understand the principles of pesticide and pest control to promote the effectiveness of those products while maintaining a green and clean environment, protecting the health of the community, thereby forming a safe and high quality agriculture production area, meeting the standards of consumption and export.

Announcement of "Standards on field testing of pesticides against harmful organisms using unmanned aerial vehicles (UAV)"

The Plant Protection Department in collaboration with Viet Nam CropLife Association and members of the PPP Task Force on Agro-Chemicals held a press conference to announce "Standards on field testing of pesticides to prevent and control harmful organisms by unmanned aerial vehicle (UAV)". This basic standard can be considered as the first document guiding the registration and deployment of the application of unmanned aerial vehicles (UAV of Drone) in the field of agriculture and plant protection. This is also the official legal basis for the registration of pesticide products Drones/UAVs to use and at the same time creates a premise for the expansion and widespread application of new spraying technologies in Viet Nam to improve the level of efficiency, safety for users and the quality of agriculture products. The potential for application of drone technology to spray pesticides to prevent pests is huge, especially on crops such as rice, maize, and fruit trees with the same or higher control level than conventional spraying. Besides, the Drone/

Carry out survey, assessment and information collection on pepper in provinces.

The signing of cooperation agreement 2022-2023 in Dong Thap between the Department of Plant Protection, Dong Thap Department of Agriculture and Rural Development and CropLife Viet Nam

The announcement of "Standards on field testing of pesticides to prevent and control harmful organisms by unmanned aerial vehicle (UAV)"

UAV technology also helps to save significant amount of drug water and labor. Farmers participating in the trial also reported that they were less exposed to pesticides than conventional spraying.

Expected activities and events in the second Quarter of 2023

- o Continue to implement activities for the second year (2022-2023) in the framework of the triparty cooperation project between Plant Protection Department (Ministry of Agriculture and Rural Development), the Department of Agriculture and Rural Development of Dong Thap and CropLife Viet Nam Association
- o Implement the second phase of "Research on Vietnamese farmers' behavior on using agro-chemicals"

7 PPP Task Force (TF) on Livestock:

Establishment of the PPP Sub Group on Pig Production under the PPP Task Force on Livestock

In the first Quarter of 2023, the Department of Livestock Production - Co-Head of the PPP Task Force on Livestock worked with the Danish Embassy; PSAV and a group of experts plan to do a rapid assessment of the chain's factors in various types of cooperation: FDI enterprises, enterprises with domestic investment in chains, independent private farms, cooperatives, households, the relationship between "public" and "private" in the field of pig as a basis to propose with the Ministry of Agriculture and Rural Development to establish the PPP subgroup on pig production. It is expected to be implemented in the last end of March 2023 and complete the report in May 2023.

PSAV Secretariat works with livestock industry experts

Connecting partners to the value chain in the livestock industry

Within the framework of the Partnership for Sustainable Agriculture Development in Viet Nam (PSAV), the PSAV Secretariat has promoted the connection of partners, calling for participation of leading livestock enterprises and corporations to promote cooperation activities and sustainable development of the livestock industry in the context of priority topics such as low carbon emission, circular economy of the Ministry of Agriculture and Rural Development in the coming years.

CONSULTATION MEETING TO DEVELOP THE PROJECT "NATURAL-BASED CLIMATE CHANGE ADAPTATION SOLUTIONS IN AGRICULTURE (NBS) THROUGH PRIVATE SECTOR TRANSFORMATION IN VIET NAM (VN-ADAPT)"

PSAV SECRETARIAT'S ACTIVITIES

Viet Nam is one of the countries most affected by climate change due to the majority of the Vietnamese population lives in low-lying deltas and climate-vulnerable areas where the economy and people's livelihood is highly dependent on agricultural production. The importance of natural-based solution for adaptation (NbSA) is recognized in Viet Nam's international commitments on climate and biodiversity as well as in national policies. Within the framework of the Project, on February 23, 2023, PSAV Secretariat coordinated and worked with SNV organization (project implementing unit) to integrate into the draft project document activities to improve raising awareness of appropriate NbS business models and opportunities, as well as building the proficiency of members of the public and private sectors to meet standards. The coordination activities mainly focused on knowledge sharing, organizing events and training courses

NbS để thích ứng trong nông nghiệp tại Việt Nam

Tái sinh rừng ngập mặn ven biển

Nuôi ghép tôm-cá-cua với hơn 250% rừng ngập mặn, bảo vệ đường bờ biển khỏi bão, nước biển dâng, và giảm thiểu tác động BĐKH. Tích hợp với RAS để thay thế tôm thâm canh (ép ven biển).

Nông nghiệp đưa vào lưu vực thượng đông bằng

Tích hợp cá-sen, lúa nổi, lúa-nuôi trồng thủy sản và các loại cây rau nổi khác nhau, thay cho vụ lúa thứ 3 & khôi phục thủy văn tự nhiên với các lợi ích về dịch vụ đa dạng sinh học & hệ sinh thái.

Hệ thống nông-lâm kết hợp vùng cao

Cà phê trồng xen với trái cây (chanh dây, bơ, sầu riêng, mít), các loại hạt (mắc ca) và gỗ (tếch) để mang lại lợi ích về nước, đa dạng sinh học, dịch vụ hệ sinh thái (chất lượng đất, bảo vệ đầu nguồn) và các-bon.

Bảo tồn đất ngập nước

Mở rộng chức năng "bọt biển" để giảm thiểu tác động lũ, hạn hán, mang lại nhiều đồng lợi ích (về lương thực, đa dạng sinh học, nước), khôi phục nước ngầm nhờ quản lý tầng chứa nước.

for PSAV and PPP Task Force members, and creating inclusive financial access opportunities for small-scale farmers as well as small and medium enterprises and cooperatives in the agricultural value chain to promote sustainable transformation at the same time, promoting women's economic empowerment in sustainable agricultural value chains.

DEVELOPMENT ORIENTATION OF PPP TASK FORCE ON RICE IN 2023

PSAV Secretariat working with Bayer

On the morning of February 14, 2023, the Secretariat of Partnership for Sustainable Agriculture in Viet Nam (PSAV) had a direct meeting with Bayer Viet Nam - Co-Head of the private sector of PPP Task Force on Rice to discuss and re-evaluate the Task Force's performance in the first three months of 2023 and review plans for the year. After completion, the draft plan will be sent by Bayer in collaboration with the National Agricultural Extension Center (Co-Head) to relevant units and members of the Task Force for comments and implementation.

TRAINING AND ASSESSING THE CONFORMITY OF VIET NAM'S LEGAL FRAMEWORK WITH ASEAN RAI

Photo: Deputy Minister Tran Thanh Nam speaks at the bridge point of the Ministry of Agriculture and Rural Development

In 03 days from March 29 to 31, 2023, the Information Center for Agriculture and Rural Development - Institute of Agriculture Policies and Strategy (AGROINFO/IPSARD) organized a proficiency training session on responsible investment in the field of food, agriculture and forestry for partners. At the course, participants received a lot of information and practical lessons on promoting investment in food, agriculture and forestry in the ASEAN region, contribute to regional economic development, food security and nutrition, food safety and equity, as well as sustainable use of natural resources. In addition, trainees will be involved in a network of specialized agencies at the central and local levels, a network of national and international experts throughout the assessment process, identify policy gaps and develop a national action plan to promote and apply the implementation of ASEAN RAI in Viet Nam.

INTERNATIONAL COOPERATION IN AGRICULTURE

On February 10, 2023, the Ministry of Agriculture and Rural Development held a Conference on International Cooperation in Agriculture to share and discuss past results in order to enhance the effectiveness of international cooperation and international economic integration in the upcoming time.

Minister Le Minh Hoang giving the speech at the Conference

According to Minister Le Minh Hoang, international cooperation always needs to be one step ahead to be ready to deal with all challenges, take advantage of every opportunity with creative ways, and effectively serve the policy of Party and State, towards the goal of "ecological agriculture - vibrant countryside - innovative farmers".

In recent time, the Ministry of Agriculture and Rural Development has actively participated in important international forums, creating an image of a reliable and responsible partner to the international community. Viet Nam has been selected by the

OTHER RELEVANT EVENTS

United Nations to host the Global Food System Forum in April this year. At the same time, the World Economic Forum has selected Viet Nam as one of the first three countries to pilot the Food Innovation Hub.

At the Workshop, Mr. Nguyen Do Anh Tuan, Director General of International Cooperation Department, Ministry of Agriculture and Rural Development presented the Draft Strategy for International Cooperation in Agriculture and Rural Development until 2030.

The Strategy divides into three main groups of tasks and solutions, including proactive international integration, bringing into play the best advantage of Viet Nam's agricultural sector; strengthening partnerships, building a good image of agriculture, farmers and rural areas in Viet Nam; optimizing the mobilization and use of external resources for Viet Nam's agriculture and rural development sector.

About the implementation, Mr. Nguyen Do Anh Tuan made a number of proposals. Firstly, the agricultural sector needs to promote propaganda and raise awareness about international cooperation, effectively implement the signed agreements related to the industry.

Secondly, strengthen regular monitoring and evaluation to improve the effectiveness of strategy implementation, and at the same time review and adjust the Strategy to suit each period and practical conditions.

THE AGRICULTURAL INDUSTRY NEEDS TO HAVE A STRONGER AND MORE SUSTAINABLE BREAKTHROUGH

On the morning of January 13, Prime Minister Pham Minh Chinh attended a Conference to review the work in 2022 and implement tasks for 2023 of the agriculture and rural development sector organized by the Ministry of Agriculture and Rural Development.

"Agriculture accounts for more than 75% of the total export surplus value of the economy"

Minister of Agriculture and Rural Development Le Minh Hoan reported at the Conference

At the Conference, Minister Le Minh Hoan informed that in 2022 all 6/6 industry targets assigned by the Government has met and exceeded the plan: GDP growth of the whole industry reached 3.36% - the highest level in recent years (Government assigned 2.5-2.8%); export turnover of agricultural, forestry and fishery products reached 53.22 billion USD (Government assigned 50 billion USD), trade surplus reached 8.5 billion USD, accounting for more than 75% of the total trade surplus value of the whole economy; the percentage of communes meeting new countryside criteria was 73.06% (Government assigned 73%) and 255 district-level units meeting standards/completing new rural construction

tasks (Government assigned 235 units); the number of communes meeting environmental criteria in new rural construction reached 78% (Government assigned 77%); forest coverage rate reached 42.02%.

At the Conference, Prime Minister Pham Minh Chinh emphasized a number of standpoints on direction and administration: Promote brand building; planning the development of suitable material areas and on par with development requirements; promoting the application of science and technology, digital transformation, green transformation, circular economy, linking agricultural

development with culture and tourism; cooperate with the banking industry to meet the funds for agriculture, farmers and rural areas, especially for export; diversify products, markets, supply chains, improve product quality, participate deeper in value chains, global supply chains; replicate good models, new and effective ways of doing things. The Prime Minister gave examples for the models of planting fruit on slopes, growing coffee in areas where there is no tradition for a long time...

About the target, the Prime Minister suggested the industry strive to achieve higher growth than last year, reaching about 3.5%; export reaching about 55 billion USD; forest coverage rate stabilized at 42% and improve forest quality; the rate of communes meeting new rural standards at about 80%, 270 district-level units meeting the standard/completing

"Through many ups and downs, the industry has affirmed its role as the backbone of the economy; making great contributions to building an independent and self-reliant economy associated with proactive and active international integration, extensive, substantive and effective; contribute to bringing a prosperous and happy life to the people." – Prime Minister Pham Minh Chinh.

The Prime Minister visited the booth for introducing agricultural products. Currently, there are 8,689 standard products under the Program "One Commune One Product" – OCO, an increase of nearly 3,700 products compared to 2021.

the task of building new rural areas; the rate of rural population having access to clean, standard water is about 60%.

SOME OUTSTANDING ACTIVITIES IN THE NEAR FUTURE

- On the sidelines of the "4th Global conference of Food System (LTTP)" of the One Planet network that will take place from April 24 to 27, 2023 in Ha Noi, Partnership for Sustainable Agriculture Vien Nam (PSAV) will coordinate with Grow Asia to organize the "Inter-regional Ministerial Conference on Digital Transformation of food systems" to share successful lessons in building and implementing sustainable food systems. Deploy digital transformation solutions in agriculture, and discuss regional and multi-country guidance on catalyzing investment resources and joint action;

- Consult and finalize the rapid assessment report to establish the PPP Sub Group on Pig Production within the framework of the PPP Task Force on Livestock under PSAV.

- PSAV Secretariat review and re-evaluate the activities of the Secretariat and PPP Task Forces in the first 06 months of 2023,

at the same time make a detailed plan for activities in the last 06 months of 2023.

- PSAV will sign a Memorandum of Understanding (MOU) with a term up until 2025 with Nestlé Viet Nam Co., Ltd to promote the roadmap to actualize the net zero emission commitment in agriculture through regenerative farming practices, sustainable and responsible agriculture. Expected signing time is June 2023. Set up a plan for minister Le Minh Hoan to receive and work with Mr. Mark Scheneider, General Director of Nestlé Global Corporation to launch Nestlé's agroforestry initiative project on June 20, 2023 in Dak Lak. The goal of the project is to plant about 2.5 million trees, contributing to reducing nearly 500 thousand tons of CO2 in the period of 2023-2027.
